## Handmade Cards!

Make Mum feel special with one of your handmade DIY Mother's Day cards! There are some printable card templates in Annex B to get you started.

# Annex A – Flowering Tree

Materials: Coloured paper, scissors, glue, stickers, writing materials (i.e. pencil, markers)

Invite your child to outline his/her hand on a brown card and cut it out. Make 2 cuts (A and B) at the opposite ends of the horizontal base.

Work together with your child to fold pieces of coloured paper into two and cut out the hearts and leaves. Alternatively, you may get your child to use stickers.

Paste the cut-out leaves and hearts or stickers on the tree.

Encourage your child to draw or write a message on the tree trunk.

Work with your child to slot the two cuts over each other to make the tree stand.

## Annex B – DIY Card

Materials: Paper, writing materials (i.e. pencil, markers)
