

FamilyMatters@School for Father:

ICE CREAM MAKING WORKSHOP

A 2-hour customized Father & Child workshop by SCOOPZ, where you can handcraft your own ice cream. Through this activity, not only will Father and Child acquire practical skills of making ice cream with bare hands, they will also learn about the various elements that contribute to quality ice cream and experience Handcrafted Ice Cream and the Benefits over Machine Produced Ice Cream. This workshop, with its hands-on approach, aims to allow participants to revisit some of the key components of a family and what families can do to reinforce understanding and bonding. Father & Child will learn valuable lessons on working together on a platform which allows communication and conflict management.

Programme Schedule:

Ice Cream Production (45 mins)

Father & Child will be organised into small groups; using the materials given, they will be taught how to make ice-cream with bare hands.

Hands-On Experience on Frying Pan (45 mins)

Using Scoopz's Signature Frying Pan, Father & Child will be involved in a hands-on session to make their own handcrafted ice-cream.

Enjoy! (30 mins)

Father & Child will have ice cream and waffle after the handcrafting activity,
